

April 24, 2015

Report To: Mayor & Council

From: Doug Brown, Manager Operations & Facilities

**SUBJECT: Execution of Municipal – Industry Stewardship Plan (ISP)
Material Service Agreement with Product Care
Association PCA**

On an annual basis a Municipal Hazardous or Special Waste (MHSW) event day takes place where the general public drops off household hazardous waste materials. The 2015 MHSW event day is scheduled for Saturday September 19, 2015. A common MHSW material is old paint cans containing leftover paint and other coatings. For example in 2014-6100 kgs of paints and coatings were collected at the September 6th, 2014 MHSW event where the Town was reimbursed \$ 2.2 per kg directly from Stewardship Ontario. Approximately half of the MHSW materials collected.

Recently, Diversion Ontario (WDO) has approved the Product Care Association (PCA) Industry Stewardship Plan (ISP) for the management of end-of-life paints and coatings with a start date of June 30, 2015. At this time the Town must enter into an agreement directly with Product Care Association to continue to receive reimbursement for paints and coatings at a rate of \$ 2.2 per kg or \$2200 per tonne.

The target date for the return of the signed agreement to PCA is June 30, 2015.

The Operations & Facilities Executive Committee recommends the following:

- 1) That the Town enter into a Municipal – Industry Stewardship Plan (ISP) Material Service Agreement with Product Care Association (PCA) for management of end-of-life paints and coatings from future MHSW event days.

- 2) That the Mayor and Clerk be authorized to execute the Municipal – Industry Stewardship Plan (ISP) Material Service Agreement with Product Care Association (PCA).

Respectfully submitted,
Operations & Facilities Division

Doug Brown, P. Eng.
Manager Operations & Facilities

Council approval of this report will ensure the following:

- 1) That the Town enter into a Municipal – Industry Stewardship Plan (ISP) Material Service Agreement with Product Care Association (PCA) for management of end-of-life paints and coatings from future MHSW event days.
- 2) That the Mayor and Clerk be authorized to execute the Municipal - Industry Stewardship Plan (ISP) Material Service Agreement with Product Care Association (PCA).
