

# IPS SINGLE-SPACE PARKING METER

The Proven™ IPS M5™ universal parking meter mechanism retrofits current on-street single-space meter housings, while incorporating additional payment options

## FEATURES

- Retrofit installation takes less than 15 seconds and requires zero modifications to existing housing.
- Large programmable LCD display which can support graphics and text in any language.
- Solar technology reduces frequency of battery replacement
- Tri-colored LED lights provide status indicators for guided enforcement and maintenance
- Mechanical keypad for intuitive payment navigation
- Certified on GSM and CDMA networks
- Level 1 PCI-DSS and PA-DSS Certified
