

Municipal Energy Finance Workshop

This Energy Finance workshop is geared towards all municipal staff, elected officials, and others interested in learning how calculate the financial value of energy efficiency projects and how to best present this to senior decision makers and the general public.

The hands-on workshop will empower participants to use tools to understand the basics of third-party financing mechanisms, utilize take-home software to analyze energy projects, build your energy efficiency project business case, and present an effective business case to senior management.

All participants will receive a detailed workshop package and access to an online toolkit with loads of information about best practices, new technologies, available funding programs... and much more. This workshop will help you implement many of the projects identified in your *Regulation 397/11* required *energy conservation plan*.

The last series of workshops quickly sold out. Beat the rush and register today!

Content

Explores the principles, concepts, and available tools for Municipal Energy Finance including:

- A quick review of Regulation 397/11 requirements
- Overview of key financial terms including the difference between Net Present Value and Internal Rate of Return
- Performing a financial analysis of an EE Project
- Simulating the capital decision process to select the EE projects that deliver the greatest value
- Preparing and presenting an EE project business case
- Linking energy management to asset management
- Full analysis of a municipal case study
- How to develop an effective elevator pitch
- Basics of energy performance contracting (EPCs)
- Calculating project costs and cash flows
- Tips on how to start implementing some of the projects identified in your municipal energy conservation plan
- Latest on incentives available from the gas and electric utilities

"Following attendance at an AMO/LAS Energy Management Workshop, our small urban municipality has benefited immensely, with respect to energy savings, through participation in both LAS's electricity and natural gas procurement programs. We continue to benefit from timely, reliable and accurate advise related to energy management issues, through our ongoing relationship with staff contacts at AMO/LAS".

Rick St. Dennis, Smith Falls

Who should attend?

Anyone who makes energy-related decisions within your organization:

- Treasurers
- CAOs and senior managers
- Councillors
- Facility managers
