Inspection
INSPECTION of APPROVED AERIAL HERBICIDE SPRAYING
CROSSROUTE FOREST

The Ontario Ministry of Natural Resources (MNR) invites you to inspect the MNR-approved aerial herbicide spray project. As part of our ongoing efforts to regenerate and protect Ontario's forests, selected stands on the Crossroute Forest (see map) will be sprayed with herbicide to control competing vegetation, starting on or about **Judy 17, 2014**. The herbicides that may be used are: **Vision**, registration # 19899, **Vision Max**, registration # 27736, **Vantage Forestry**, registration # 26884 or **Release**, registration # 22093.

The approved project description and project plan for the aerial herbicide project is available for public inspection at the Resolute Forest Products office and on the MNR public website at ontario.ca/forestplans beginning **April 1, 2014 until March 31st, 2015** when the annual work schedule expires. Ontario Government Information Centres at Ontario Government Information Centres at Atikokan, Fort Frances and Rainy River provide access to the internet.

Interested and affected persons and organizations can arrange an appointment with MNR staff at the MNR District or Area office or the Resolute Forest Product office to discuss the aerial herbicide project. For more information, please contact:

Judy Kaufman
Resolute Forest Products
427 Mowat Ave.,
