

July 29, 2016

Report To: Mayor & Council

From: Travis Rob, Manager Operations & Facilities

SUBJECT: MOECC Inspection Report of the Sunny Cove Camp Drinking Water System

Please find attached for your review a copy of the MOECC Inspection Report for the Sunny Cove Drinking Water System. MOE Officer, Carolyn Lacroix, on July 12th, 2016, completed the inspection of the drinking water system at Sunny Cove Camp. No orders were issued, however there were two (2) non-compliance items where the Town was not operating the water system within the applicable Regulations.

Please find attached report prepared by Doug Herr, Environmental & Facilities Superintendent outlining the Work Plan and proposed deadline dates to address these two (2) non-compliance items.

It is recommended by the Operations & Facilities Executive Committee that the 2016 MOECC Inspection Report of the Sunny Cove Camp Well Supply Drinking Water System be accepted and that the two (2) non-compliance issues be addressed in accordance with the Work Plan as contained in the report prepared by Doug Herr, Environmental & Facilities Superintendent.

Respectfully submitted,
Operations & Facilities Division

Travis Rob, EIT

Council approval of this report will accept that the 2016 MOECC Inspection Report of the Sunny Cove Camp Well Supply Drinking Water System be accepted and that the two (2) non-compliance issues be addressed in accordance with the Work Plan as contained in the report prepared by Doug Herr, Environmental & Facilities Superintendent.
